Helping the animals you love is Black & White
but taking action is **Golden**

Ride for Rescue Movement and be an Ambassador of life!

Join our mission to provide life and hope in the equine community and in doing so, touch the lives of many horses and people along the way. We believe, with humane companionship and financial help, that every incremental effort given for "charity" should be given to the charity. Putting this philosophy into action, the National Equine Rescue Foundation Inc. was established in 2012.

We are trying to raise awareness and funding for our organization through our Rider Ambassadors program, where riders purchase and wear our colors in the show ring. Ambassadors give 2% of show earnings to our mission and they are spokespersons for our cause. Money is given to multiple hand-picked and researched rescues around the USA. Being an Ambassador is so important to saving horses!

Yes, I would like more information on becoming an Ambassador for Rescue Movement.
